DETAILED ACTION

Applicants' arguments, filed 2/11/10, have been fully considered. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 49 stands rejected under 35 U.S.C. 103(a) as being unpatentable over Müller (Expert Opinion on Pharmacotherapy, 2002, Vol. 3, No 4, pp. 381-388) in view of PERMAX® prescribing information (http://www.fda.gov/medwatch/safety/2003/permax_PI.pdf, revised October 2, 2003, pp. 1-2) and Kuhajda et al (US 5,759,837).

Applicants assert amending the recitation of “a therapeutically effective amount” of the active provides a sufficient nexus between the results and the amount of active where the claim also recites “for use for treating Parkinson Disease”.

Examiner disagrees. First, Examiner notes “for use for treating Parkinson Disease” is simply one intended use, and therefore not limiting on the use of the phrase “a therapeutically effective amount”.

Second, even if a nexus were found between the two phrases, the amount of active may vary, such as if there is an additional active agent present or the a reduced

Art Unit: 1612

dosage amount. Either way, where only a minimal amount of dopamine receptor agonist is administered, it is unclear if the resulting benefit would be unexpected, given the side effects would also be minimized by the reduced dosage.

Claim 72 stands rejected under 35 U.S.C. 103(a) as being unpatentable over Müller (Expert Opinion on Pharmacotherapy, 2002, Vol. 3, No 4, pp. 381-388) in view of Nystrom et al. (US 5,6345,213).

Because Applicants did not specifically address this rejection, this rejection is maintained for the reasons stated above.

Allowable Subject Matter

Claims 50, 55, 92, and 93 remain allowable for the reasons of record.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
